CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: Upon arrival I was met by Mapholi who is working for the Derpartment of environmental affairs . I explained to Mapholi that the Spca has received a complaint about a German shepherd that is being kept in a dog crate the whole day. Mapholi took me inside the garage where the dog was lying inside the garage on a leash. Mapholi says Max is a service dog and belongs to the department of environmental affairs. Max are being used to sniff out abalone ,crayfish and drugs. The reason why he put Max in the crate is to make him comfortable staying in the crate for when they have to travel so that Max don't stress inside the crate. Mapholi also told me that he take Max for a walk every 2hours,the people who also works their confirmed that Max are not in the crate the whole day and that Mapholi or his assistant do take Max for long walk ls down the beach. Water and food was observed. When Mapholi is not working ,Max is also not working and goes with Mapholi home every day. No welfare concerns was noted.

ACTIONS

NO ACTION REQUIRED

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-09-03
