General Report Comments: I went out and observed about 10 sheep. Wynona told me that the sheep were sleeping in the wendy house and the rsm was injured when the house collapsed due to the heavy flow of the water from the broken dam. There is another sheep that is also injured but she can walk and can use the injured leg. I convinced Wynona to slaughter the ram and she agreed. I used the captive bolt to stun and I did cut the throat. The dog is not injured and Wynona informed me that at first she thought that the dog was injured as the dog was limping but the dog is walking perfectly. I will go back to check on the remaining animals.
