General Report Comments: PROACTIVE

Upon arrival, I was met and granted access to the property by the owner.

I observed 1x dog tethered on a short rope (1.5m) attached to the kennel. The owner advised that the dog escapes the property then the people in the community throws the dog with stones, as this apparently happened previously.

I advised her that she must then fix the fence and the gate so the dog cant get out, and place the dog on a runner in the interim. She understood and advised that she will comply with fixing the fence and gate.

Warning issued according.

9 days granted to fix the property.

The owner took the dog of the thether, as I advised her that she is home now and can keep an eye on the dog to ensure the dog does not roam the street, as the dog apparently roams the streets at night.
