General Report Comments: Upon arrival, I was met and granted access to the property by the owner's son.

I saw that a runner of a 15m approximate length has been installed and the dog is moving easily on the runner. The dog still has the collar on and on both ends of the attaching chain are swivels.

I saw the back yard has been cleaned and precast wall has been build, but is not done yet. The son advised that they first have to deal with the death of the family member now before they continue building, hence they have installed the runner in the interim for the dog to have more roaming space.

There are currently no APA co that, but I would like to conduct another inspection in a few weeks time before closing this case.
