General Report Comments: Upon arrival, I was met at the gate by the owner, Jolin. I saw 4 dogs trough the gate. The dog.of concern is a white Pitbull named Trigger. This dog is underweight, BCS 2/5 with his ribcage, spine and hip bones visible. The dog is also covered with ticks.

The owner advised that he is financially struggling, I recommended that he surrender Trigger but he refused and said he will make a plan by the 15th of Sept to take the dog to a veterinarian.

I made it clear to him that the time frame is to long and that I will only grant him time till next week Thursday and issued a warning accordingly stating such.

The other dogs on the property appear to be in good condition with no veterinary or health concerns observed.

The dogs have access to drinking water as there is a few large plastic buckets with water scatted around the property. According to the owner the dogs all sleep inside the house, a sepearte space is allocated to them, I could not see this as the gate could not be opened for me. This i will verify on my follow up inspection.
