General Report Comments: Upon arrival, the owner was not home and the daughter in law who identified herself as Zubaida met with me at the gate. I asked if she is aware of the dogs being taken for treatment and she said that she does not know as she is not always here.

I proceeded to issue a warning stating:

1. If the dogs have not received treatment yet, the dogs must then be taken for veterinary assessment and possible treatment. If the dogs received treatment then proof of such must be provided.

As I left the property the owner, Ms Cloete arrived.

Cloete advised that the 1x Boerboel died on Monday (she does not know from what) evening and that they only have the GSD and the remaining Boerboel left on the property.

Cloete bought Simparica from the petshop and gave to the 2x Boerboels. She advised that she will buy for the GSD as well and that by Monday it will be done.

I will follow up Monday to ensure it was bought and there after I will conduct regular follow ups to verify progress.

The owner also showed me a large bag of dog food which she bought and is giving 2x day.
