General Report Comments: I was met by Wesley Carolus who is the owner of the dog in question . Wesley gave me access to the property and we went to the side of the house where I observed 1x brown pitbull male on the property. The pitbull male is underweight and I asked Wesley if they have food for the dog and he said yes. The dogs living area was also dirty and I asked Wesley to pick up the dog poop that is lying around. Wesley told me that he is feeding the dog Roman bit he does not seem .to put on weight. I told Wesley that I think the dog might have tickbite fever and needs to be on antibiotics . I issued warning W5581 for the dog Roman to be examined by a vet. Will follow up.
