General Report Comments: Upon arrival, I was met by the owner. I observed the dog still on his long light chain. The dog had 270 degree movement space. The dog has access to his kennel and water. I saw the swivel appeared to be not functioning and gave them a new swivel to prevent the chain from twirling.

No contraventions of the APA observed today.

I will do a final check in 2 weeks time to ensure all are still in order.
