General Report Comments: Upon arrival, I was met and granted access to the property by the owner.

I saw the dog of concern free roaming inside the property. The owner advised when he is home he unchains the dog to roam freely. He showed me the runner that is installed, it is about 2m long and he extended the attaching chain which is approximately 5m long now. He does not have a collar for the dog and uses a hosepipe. I assisted him with a swivel and attached it to the runner to prevent the chain from twirling.

The owner advised that he wants to surrender the dog but first want to speak with his wife, who is home tomorrow. The owner asked if I can collect the dog on Wednesday. I agreed to collect the dog then and advised that it will be better for the dog as the dog is underweight.
