CONFINEMENT OF ANIMALS	Static Chain - adequate length	Instruction from Law Enforcement as the dog apparently jumps

General Report Comments: Upon arrival, I was met with the owner. I observed the dog on a long static light chain. The chain is approximately 20m long. The dog had a collar with a swivel to prevent the chain from twirling.

The dog has evidently gained weight since my initial inspection, as well as my previous inspection.

The other dog was given to the owners mother. And there is currently only 1x dog left on the property.

I will follow up in 4 weeks time, to monitor progress.
