General Report Comments: I saw 1x white and brown adult Boerbok male tied with a rope on the property. The rope is about 8 meters long. I also observed a bucket of water under the tree. The boerboks body condition is acceptable and the living area is clean. The property is fully enclosed so I don't see any reason for tethering the goat. I issued warning W5593 to untie the goat within 48 hours. Will follow up.
