General Report Comments: PROACTIVE

Upon arrival, I was met and granted access to the property by the owner.

I observed the dog chained close to the front gate. The light chain is approximately 4m long attached to a swivel to his material collar. The dog has a drum as shelter as well as a wooden kennel. The dog had access to drinking water.

I asked the owner as to why the dog is chained, he advised that there is a section where the dog jumps over the gate and then runs in the street, and that he does not have the financial means to raise the fence or gate.

I asked if he is able to install a runner and he advised that he will do this.

I issued him with a warning stating:
1. Place the dog on a runner
