General Report Comments: Upon arrival, no one appeared to be home as there was no response to my presence.

I observed the dog on a runner. The runner is approximately 10m long with an attaching rope/chain of 4m with an attaching swivel to the makeshift collar. They made a collar for the dog where they used an old electrical wire and run it through a hosepipe. The dog still has access to his shelter.

The dog appears to be in good condition with no veterinary or health concerns observed.

The owner complied.

No contraventions of the APA observed.
