General Report Comments: PROACTIVE

Upon arrival, I was met and granted access to the property by the owner.

I observed 1x dog kept on a very short rope, 600mm, tied around the washing line pole. I asked the owner as to why the dog is kept like this, she advised that she only tethers the dog for a couple of hours in the day outside for the dog to lay in the sun as the dog is primarily kept inside the house. The dog is allegedly walked in the afternoons and evenings by her boyfriend.

The dog is apparently potty trained and when it wants to come outside he makes noises then she will go outside with him to do his business and then he runs into the house again. If she leaves the dog unattended outside the dog runs into the street.

I advised the owner to untie the dog immediately, which she did, and issued a warning for:

1. If needed for the dog to be tethered the dog must be placed on a runner with access to shelter and water at all times.

I will conduct a follow up next week when I am in the area again to ensure continued compliance.
