General Report Comments: PROACTIVE

Upon arrival, no one appeared to be home as there was no response to my presence.

I observed 1x dog tethered in front of the property. The rope is about 2m long attached to a material collar. The dog has access to a makeshift kennel, however the floor is not elevated, and there are large openings on the side.

I issued a warning:

1. Place the dog on a runner
2. Provide the dog with adequate protection against the weather elements
