General Report Comments: PROACTIVE

Upon arrival, I met with the owner. I observed 1x dog chained to his kennel. The chain is approximately 2.5m long. The dog has a suitable material collar with an attaching swivel. The dog has access to adequate protection against the weather elements through his wooden kennel. The dog appears to be in good condition with no veterinary or health concerns observed.

According to the owner the dog jumps the fence, (1.2m) hence the dog is chained.

Warning issued:
1. Place the dog on a runner.
