General Report Comments: Upon arrival, no one appeared to be home as there was no response to my presence.

I saw the warning left initially was still on the gate.

I saw 4 additional adult Angulate tortoises today. I walked around the from yard and saw 2x large plastic water dishes placed in the yard from which the tortoises can drink water as well as soak in. The 1x water dish was however dirty. There is a fruit tree inside the yard with ripe fruit.laying on the ground, which the tortoises can eat from as well as several other palatable plants, however it is not the correct diet for them.

I left another contact warning, whereby I also stated I suspect the animals are abandoned, since my warning is left on the gate indicating no one has been around in the past 48hrs.

I will follow up on Monday, I will also ask the complainant if he does not perhaps have the contact details of the owner.
