General Report Comments: Upon arrival, I was met and granted access to the property by the owner.

I observed 1x dog free roaming inside the property. The dog always has access to the house and also sleeps inside in the bedroom.

The owners are an elderly couple and have a stay in domestic worker. If they go somewhere there is always someone around to look after the dog and they also leave the sliding door open. The dog is in good condition with no veterinary or health concerns observed.

Regarding the complaint:

There are currently no ducks on the property. There were ducks that the owner had from a duckling stage and they were kept in large guinee pig cages. They have become to big for the cages and the owner then gave them away to a family living in Longacres on a small holding where they are able to free roam at all times. The owner showed me a video of about 3 weeks ago that he took where they are obviously to big to be kept longer in cages, hence he made the decision to give them away where they are now able to free roam at all times.

There are no other animals on the property.

No APA contraventions observed.
