ANIMALS IN GOOD CONDITION	No ***	Dog appears to have a severe flea allergy
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Dog appears to have a severe flea allergy
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Accompanied by Trainee Insp Mathabela

Upon our arrival, we were met and granted access to the property by the owner.

We observed the puppy in question free roaming inside the property . I picked the puppy up and saw sores on his chest, legs, back and neck. These sores appear to be from a severe flea allergy.

We tried to convince the owner to surrender the puppy but he did not want to stating he will take the dog to the doktor tomorrow. The owner appeared to be intoxicated with some substance and was looking and talking all over the place.

A warning was issued:

1. Take the dog for veterinary assessment and possible treatment .

24hrs granted

ACTIONS

Warning Issued W6674

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-09-20
