CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Tethered ***	For grazing, not permitted to free roam- residential area

General Report Comments: Upon arrival, I observed the donkey tethered to a pole. The donkey has twirled the rope by going around the pole and has now restricted the extend of the rope. The donkey did not have water.

There was children playing in the street and I asked if they know who the owner of the donkey is. They were willing to assist and took me to the owner's house - 781 Calabash Street.

The owner was not at home and I met with his wife, Adriana. I shared the concern regarding the donkey on a short tether and not having water, as well as mentioned that he cant reach the tree for shelter as it is rather hot now. She asked the children to go call the owner's friend to fetch the donkey and bring him home. This was done immediately. The friend went and fetched the donkey.

The donkey is left in the veld to graze, according to Adriana they take water down for the donkey but cant leave the bucket out as the bucket will get stolen. They have been warned by Law Enforcement before that their donkey must be tethered and is not allowed to free roam as thisnis considered residential.

I issued a warning for future reference:

1. Ensure the donkey has access to water at all times.
2. Ensure the tether is a minimum of 10m and that it cant twirl, but rather swivel around a pole.

ACTIONS

Warning Issued W6677

REPORT OUTCOMES

Case finalised - NFA

OWNER COMPLIED

INSPECTION ANIMALS

Description:

1 x HORSES / DONKEYS (DONKEY) - FEMALE (COLOUR: GREY/WHITE) CONDITION: Good BCS 3/5
