General Report Comments: I saw 1x brown terrier x male on a rope with a collar. The rope is long but where the dog is tied is the problem because he can tangle himself around the tree. Shelter is available and the dogs body condition is acceptable. The water bowl is also dirty with algae present at the bottom. I asked one of the kids that was standing there to wash the dogs water bowl and he did it immediately. I issued warning W5510. Will follow up.
