CHECKLISTS

General Report Comments: Swartland law enforcement brought a injured dog to the Spca,according to law enforcement the owner of the dog told them that there is a person staying o the property that hit this dog and has killed 2x other dogs as well. I took the dog to the Village Vet to be examined. The dog was examined by Dr. Jen Deverson. Dr. Jen said that she can't determine if the dog was poisoned or blunt force trauma to the head and decided to humanely euthanized the dog. Later that the day after work field officer Chiwawa and I went to 546 Kareeboom Street in Darling. The owner of the dog that was euthanized earlier today by Dr. Jen,granted us access to the property. Another person came from the back who introduced himself as Ntema April. Ntema admitted that he hit the 1x dog because the dog attacked him,but did not kill the dog and the dog that was taken by law enforcement, according to Ntema he is the one that went to fetch the dog in the street because he could see the dog was hurt. The owner of the dogs has a lot of different stories to what really occurred. I issued Ntema with warning W5503 that it is against the law to hit any animal and if a incident like this happens again that further steps will be taken. Nfa until further notice.
