General Report Comments: Peter Smith stopped me and asked for my advise because his collie x,Blackie seems to loose some of his hair. I saw 1x black collie x male,Blackie on the property. The dog is loosing some hair on his back legs. I told Peter that the dog is starting to get mange because if you don't regularly treat your dog for external parasites this will happen. I advised Peter to go to the petshop in town and he must ask them something for mange. Peter said that he will do it. I issued warning W5517 to provide Blackie with the necessary treatment to treat the skin problem before it worsen. Will follow up.
