General Report Comments: Jan advised that he wont be present, but that I am welcome to go around the back and look at the dogs, as all the doors have locks on then now.

I went to the back and saw that dogs now have access to large self feeders, I saw pellets inside the feeders. There are plenty of large water buckets placed around with water in. The area was clean, no excessive faeces were observed.

The dogs appeared to be in good condition with no veterinary or health concerns observed. The area was cool, well ventilated and has enough light and air coming through.

No APA contraventions observed during the time of my inspection.

I will do a routine check in a few weeks time.
