General Report Comments: Upon arrival, I met with the complainant. The car was parked at the back of the mall, under cover by the Checkers Delivery.

It is a Nissan Xtrail, Silver, CAM30411.

I saw the dog had an ID collar on with a contact number and I then called the number. A lady answered the phone, she confirmed the car details and advised she will come to the car now. Within 5min the lady and a man came to the car.

They advised that they stay at the Koringberg Caravan Park, and does not have an enclosed property or yard to keep the dog, hence they take the dog with them everywhere they go. They are also travelers.

I educated them regarding leaving the dog unattended inside the car and they understood.

The car was parked under cover, 2x front windows were 7cm open, and the dog had water.

Warning issued for future reference:

1. The animal may not be left unattended inside a vehicle.
