General Report Comments: Upon arrival, I entered the property as there is no gate. I walked to the back and called the dog. The dog came out from his kennel structure and was happy to see me. The wounds have healed completely, and the dog only has a very slight limp, but when you pretend to not look the dog walks normal. The dog is in good condition with no veterinary or health concerns observed.

I am satisfied to close this case, as the owner complied, the dog healed and there are no APA contraventions observed.
