CHECKLISTS

General Report Comments: Upon arrival, no one was home. I asked the neighbor if a man named Marius resides here, to which he confirmed and said the owner is at work. I asked him if he knows where the dog is kept, to which he advised that Marius gave the dog to someone in Renonkel str. I asked the man if he can take me to the dog and he did.

The dog resides now at 62 Renonkel str, PATERNOSTER. I observed the dog kept on a rope tethered to a post. The rope is approximately 4m long. The dog had a collar on and the rope was attached to a swivel. The dog had water, adequate protection against the weather elements in the form of a large wooden kennel. The dog appeared to be underweight as the dog's ribcage was visible.

I issued a warning:

1. Place the dog on a runner - 7days granted
2. Take the dog to the mobile clinic on Wednesday for deworming.
