CHECKLISTS

General Report Comments: Upon arrival, I was met by a young woman. I asked if the owner is around and she said no. I asked where the dog is kept and she said that they made the dog loose and he is probably roaming in the street somewhere but that they did install a runner. I asked to see the runner and she showed me.

The runner is about 7m long and has an attaching 4m light chain, with a swivel attached to a thick material collar. There is also a large wooden kennel, which provides adequate protection against the weather elements.

I will come by next week again to see if the dog is on the runner.
