General Report Comments: Upon arrival, I met with the owner, Ricardo. He is a very rude person and kept arguing with me regarding the dog. He has made the chain longer with an additional 2m and the total length of the chain is now 8m, granting the dog sufficient roaming space. The area where the dog can roam is an L shape, to which he has 8m in both directions. According to the owner, he was advised by Trainee Insp Mathabela to extend the chain hence the chain is no longer.

I believe the dog has more space now than what a runner would provide, as the owner also advised that he rents the property and won't be able to cement pens into the ground as the landlord does not allow any such construction.

He also advised that his one friend asked him for the dog and he is inclined to give him the dog as the dog will then apparently be able to free roam on his property as the property is allegedly well enclosed. He advised that this will happen before the end of November.

I will do a final check at the end of November to verify if the dog is gone, or if the dog is still kept on his extended chain.
