VETERINARY PROBLEMS / HEALTH CO	Yes ***	Injured leg.
CONFINEMENT OF ANIMALS	Free roaming - property not adequ	

General Report Comments: I was met by Zelda who also works with Carthorse horse rescue, in Chatsworth to attend to a case about a horse with a injured leg. Upon arrival the owner was not at home, and there were two boys inside the property with the horse. I saw 1x grey mare with a body score of 2/5 on the property, she also has a injury to her left leg that I swollen. I asked the boys if they know what happened and they said no. Zelda contacted Dr. Anja at Bergzicht animal hospital in Malmesbury and explained to her the situation, I then heard Zelda asking Dr. Anja if she can give the horse some antibiotics and a painkiller and Dr. Anja said yes, under Dr. Anja instructions, Zelda gave the horse some Purbac antibiotics and Previcox painkiller. Zelda then began to clean the wound and there was a lot off puss coming from the wound. While there the owner of the horse wife arrived. I asked her if the horse have any food and she showed me a bag of percentage food. I advised her to get the horse some oathay as well for roughage because they can't just feed the horse percentage. Zelda told me that she is going to check on the horse again on Friday. Will follow up.
