CONFINEMENT OF ANIMALS	Static Chain - inadequate length **	The dogs jumps out of the property and chase people in the str

General Report Comments: Junior is on a short static chain with a collar. Water and shelter observed. His body condition is fair and acceptable. The Jack Russell Terrier is on a long static chain with a collar. Water and shelter observed. Junior is sterilized but the other dog is not. Jan told me that he can't afford to sterilize the other dog as he is old and relies on the government grant that he gets. The living environment is clean. I issued a Notice to comply advising Jan to remove Junior from the short chain.
