General Report Comments: I saw 1x brown pitbull male on a long chain without a collar. Nabel Abraham's came out and told me the dog belongs to his brother, but he is working. I asked Nabel why the dog is chained and he told me because as I can see their property is not fully fenced and that the pitbull is very aggressive towards other animals, especially horses because the horses are walking up and down in the street. Water, food and shelter was observed and the dog's body condition is acceptable. I issued warning W5536 to provide the dog with a collar. Will do a follow up.
