General Report Comments: The time I arrived, Isaac advised that they are taking lunch. I said it is fine, I know where the area is, and that I will just go around and have a look as I have not been here before.

There are about 64 holdings where animals are kept. Majority of the animals were roaming outside of the camps. I saw about 50x pigs; 30x goats; 20x geese; 10x chickens and 30x sheep. Not sure where the rest of the animals are and and only assume the are roaming on top of the hill.

The camps observed appeared to be well constructed, safe, secure has shelter and water tanks.

I saw no contraventions in terms of the APA.

Routine inspection will follow next month, where I will go early the morning as the animals will then still be in the camps.
