General Report Comments: The dog named Witvoet was on a short chain with a collar when I arrived. Efa informed me that the dog broke the kennel as he is aggressive and bites anything close to him. Both dogs body condition is fair and acceptable. The female dog named Chloe sleeps inside the house. The living environment is clean. I observed water. Before I left the property Efa informed me that I rather take the dog as there is small children who are under four years on the property and she is scared the dog will bite them. She surrendered the dog named Witvoet and there is one dog left on the property
