General Report Comments: Joint inspection with SBM LE.

Upon arrival, we were met by a tenant, Ludwe Manyisine, who advised us that the owner is currently at work. He accompanied us to the back of the property where the dogs are kept.

I observed 8x dogs kept in an enclosure. The enclosure is approximately 8m x 4m, built out of zinc, with a solid roof at the back and a net in the front. The floor is cemented. I saw a large 25 L bucket with water. The area is filthy and an unhygienic smell was protruding from the enclosure. There was a lot of feces and a built-up of urine on the one side.

I recognized some of the greyhounds, as there were recently at the SPCA, and claimed by the owner. Some of the dogs (3) I did not recognize.

I issued a warning:

1. Enlarge the enclosure by a minimum of 5- meters on every side of the enclosure.
2. Clean the enclosure, and thereafter clean on a regular basis, at least 2x day.

72 hrs granted.

LE also issued a notice that the owner must reduce the number of dogs, as he is only allowed to have 2x dogs on the property.

Arrangements were made with LE to follow up on Monday at 13h00
