General Report Comments: Upon arrival, I was met and granted access to the property by the owner.

The owner took me to the back of the nursery where the animal camps are. The owner advised that there was an incident about 2 months ago where stray Pitbulls entered his property afterhours and killed majority of his animals. The Vet had to come out and euthanize 1 Alpaca as he was severely injured.

He has very little animals left, and is also reducing the numbers as he is looking at a future without the animals being here.

Animals seen today:

3x Tortoises (2x Leopard Tortoises, 1x Angulate) - has Cape Nature Permits for them

5x Rabbits

3x Geese

2x Muscovy ducks

The facility does not have a PAPA licence. The animals are the owner's own animals. They are not here for public entertainment. The public can see them but can't interact with them at all. This is not considered a petting farm, as the animals can't be pet or fed by the public.

No APA contraventions observed.

For full particulars of the inspection/facility, refer to the attached checklist.

ROUTINE INSPECTION TO FOLLOW, However there might not be animals here anymore.
