General Report Comments: Upon arrival, I was met by the owner Tammy. I observed the dog of concern as the dog was laying comfortably, on his back with his legs up against the wall in the shade. When I called the dog the dog stood up and approached me. The dog was walking strangely like he has stiff limbs and I suspect arthritis. The owner advised that the dog is approximately 15yrs old, and she knows the time is near for the dog to PTS'D.

The owner also showed me how the dog jumps over the wall, without any difficulty or discomfort and then roams the streets.

I discussed humane euthanasia with Tammy, and I could see that it is a hard decision for her as she had the dog for a long time, and that she just needed a bit of time to think it over.

I advised Tammy that I will call her on Friday to confirm a possible date for pick up and the euthanasia.

The dog still has a good BCS, and is Bright, Alert and Responsive. Interacts well and still has a playful nature.
