General Report Comments: As I was in the area today, I came to conduct my routine follow up. Upon arrival, I entered the property as there is no gate and the main entrance to the house is at the back of the house. The main door was open and I called out to the owner. A man approached me from inside the house. I introduced myself and asked if the owner is home, the man advised that she is currently at work. I advised that I am here to check on the kittens and he granted me access to the house to check on the kittens. Not all the cats were there. I am not sure where the other cats that I previously saw currently are. The kittens of previous concern have healed well and there is currently no other concerns observed. The cats. I messaged the owner to enquire if she would like to surrender some of the cats but she has not responded.
