CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Small injury in the neck, and on 1x ear - currently treated by the
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Upon arrival, I was met and granted access to the property by the owner, Retta.

She took me to the back of the property where I saw the dog free roaming inside the property. Retra advised that LAC was there on Friday, and since then she decided to take the dog off the chain and rather have the dog free roaming.

I saw the wound in the dog's neck, the wound was clean, a good colour and shows no sign of infection. The owner advised that she is cleaning the wound 3x a day with salt water and has a wound cream that she applies to the wounds, the ear as well, 3x a day after she has cleaned the wounds with salt water and the wounds are dry.

The owner advised that she got the ointment from a friend of hers working at Wesland Diere Hospital, but that she does not know what the name of the ointment is, as it is in a labelless container. She showed me the salve, it smelled a lot like Curatex which helps for infection and inflammation.

I advised the owner that I will come by Friday again to see how the wounds are looking, and if they appear to be in a worse condition that the dog will have to be taken for veterinary treatment. She understood.

I am of the opinion that the wounds would look better by Friday if the owner keeps cleaning the wounds and applies the ointment.

I will follow up Friday to verify progress.
