General Report Comments: Upon arrival, no one appeared to be home as there was no response to my calling at the gate.

I entered the property to knock on the front door which is at the back of the house. As I walked to the back I saw that the dog has been placed on a chain with a raw chain around his neck. The chain is approximately 2m long. The dog has access to his kennel, water and a clean living area. The chain around his neck was loose.

I issued a warning:

1. The dog is to be let loose and a runner is to be installed. The dog must have a proper collar fitted.

24hrs granted, as due to the dog being chained previously and having a chain around his neck injured him.
