General Report Comments: I saw 1x brown terrier x male on a short chain without a collar. The owner Mrs. Edwina Prins came out and I asked her why the dog is chained and she told me that their property is not fully fenced and that Covo the terrier x male is aggressive towards strangers. Water and shelter is available. I told Mrs. Prins that we don't believe in chaining any animal but I understand her reason, but if the Coco needs to be chained that they should install a running chain for him so that he can have more space to move around and to also provide him with a collar. Mrs. Prins understood. I issued warning W6001 to install a running chain and to provide Coco with a collar. Will follow up.
