General Report Comments: I was met by Mrs. Boois who is the owner of the terrier x female that is on a short rope without a collar. Mrs. Boois told me that the female terrier x Melos is tied because her property is not fully fenced. I told Mrs. Boois that if the dog needs to be tied that they should install a running chain and provide the dog with a collar because the rope is too short and the makeshift collar can also hurt the dog's neck. I issued warning W6002. Will follow up.
