General Report Comments: Upon my arrival, I saw a man working inside the property and it appears as if he is building a large afdak.

I introduced myself and he advised that he works for the owner of the property.

I saw only 1 dog and saw that the dog has been placed on a runner. The runner is not very tight and an O-ring must be placed on the runner. The dogs was able to use the runner, but with time the chain is likely to get stuck.

I advised the man that he must inform the owner to pull the runner tight and to get and O-ring. The man advised that he installed the runner, but that he is not done. As when he is done with the afdak they will move the dog to this side and then he will install a proper runner for permanent usage.

He advised that they are likely to be done in the next 2 weeks.

I asked him if he knws where the other dog is and he said the owner gave the dog to someone but he does not know the person or where they stay.

Follow up can be done next week to monitor progress.
