General Report Comments: Water, food and shelter observed. The male dog's body condition has improved but he needs to improve more. The female pitbull's body condition is fair and acceptable. Alexander Mcguire showed me the fence which is is going to use so that the dogs can rund freely inside the property. He informed me that he is going to finish the fencing by the 15th of December 2024 as he is working. I felt that there was no need to issue another Notice to comply despite the fact that the dog is underweight as there is a positive change on the dog's body condition.
