Access Granted By: Vernon Cloete
Comment:
Were Animals Seen on the Property: No
Relationship to Property Owner: Worker
Captured By: JAMESON OCTOBER 2024-12-05 09:34

CHECKLISTS

General Report Comments: Inspector Van Zyl and I went to the Ganzekraal holiday resort to gather more information surrounding the donkey that was dragged and hit by kids over the past weekend. Upon arrival we were met by Vernon Cloete who is working at the resort. I showed Vernon the video of the donkey that was hit and the vehicle with the number plate. Vernon told us that he was not working when the incident took place and they don't have any CCTV installed at the resort. Vernon also told us that by looking at the video evidence, the incident happened on the public beach where everyone has access and he gave us directions to the beach, he also recognized the red pick up and told us that he has seen the pick up truck here before because the owner is cutting wood and stays in Mamre. Inspector Van Zyl and I then went to the public beach just to see if the donkey might still be there, but there was no horses or donkeys seen on the beach. We then went opposite the R27 to Ganzekraal nature reserve where there is a lot of horses, donkeys and cattle. Almost everyone of these animals belongs to the people in Atlantis or Mamre. We were stopped at the gate by a security guard, I asked the security guard if he was on duty over the weekend and he said yes, I then asked him if he has seen any kids coming through the reserve with horses and donkeys and he said no, they can't come through the reserve but the people have cut the fence somewhere on the reserve and now use that point as an exit and entry point. We drove through the reserve but did not see any donkeys, only a lot of horses. We then drove down the R27 towards Mamre to see if we can maybe spot the red Izuzu pick up truck in Mamre, we drove around in Mamre but did not see the truck. I called Andrea and asked her if she can with certainty say that the kids who hit the donkey is related to the people in the red pick up truck and she said no, she only knows that when the people in the red pick up truck saw them recording, they went down to the beach and told the children to stop because the people are recording them. Will follow up.
