General Report Comments: Upon arrival, I was met and granted access to the property by the owner. I observed 1x dog tethered with a piece of rope and a piece of chain to a pole. The chain is approximately 2m long. The owner advised that the dog keeps escaping the property, and that he was nearly run over by a car yesterday. The dog was previously always free and they decided today to tie him up. The owner advised that he was planning to install arunner, but since I am here now he will see to this asap. He called his one son and told him what to do and he immediately went to look for wire. I advised the owner that I will come around next week to check and the owner advised that the dog will be on the runner I issued a warning to place the dog on a runner.
