General Report Comments: Upon arrival, I was met and granted access to the property by the owner. I observed 1x dog tethered with a rope to the dog's kennel. The rope is approximately 1.5m long attached to the dog's material collar. The owner advised that the dog keeps escaping the property, hence they have now tied her up. I advised that the space is too small, and the owner agreed. I helped the owner to get a thick wire that they can use for a runner, the wire is approximately 6m long. I granted the owner 7 days to install a runner, however I do believe that the runner will be installed by this afternoon as her son immediately came and begun with moving things out of the way and planning how and where they will setup the runner. Warning issued: 1. Place the dog on a runner.
