General Report Comments: Isabelle the manager accompanied me while doing an inspection. Chester the donkey is doing fine and they are still treating him with the fly repellent spray. We went through all the enclosures. The geese and ducks enclosures are clean and water and food is also available. The chickens are roaming freely. The goats camp is also clean and fresh water and food was observed. The animals are all in acceptable conditions. No sick, dead or injured animal was observed. I asked Isabelle about the PAPA licence and she told me that I should speak to Babara about is but she was not there. Attached is a checklist that I've completed. Will recheck.
