CHECKLISTS

General Report Comments: I came to the facility to speak with Isabel in person regarding their PAPA Application . Isabel advised that the owner, Nonnie apparently did send the application through but must still pay. They also made contact with Donnie from Cape Nature, who indicated that he will be here on the 16th of October to do an inspection with regards to their permit application for the wild animals.

Regarding the 1x African grey that was under treatment, they gave the AG to a veterinarian from MOORREESBURG as he did not seem to cope with the environment and he is apparently doing much better. Isabelle showed me a photo of him, he is now kept in a large aviary and has no signs of featherloss anymore.

I will email the statevet regarding them currently operating without a PAPA , as I feel the owner is are not taking this requirement seriously enough.

Email will be sent tomorrow.

Routine inspection to follow in a few months time.

ACTIONS

OTHER Email to be sent to statevet regarding their PAPA

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-10-08

Animal(s) given away
