General Report Comments: I was met by Louwrens who is the abattoir manager and we went to the back where 10 cattle has just arrived. The off loading was done in a humane manner and no downers was observed . Inside the lairages there was about 20 Merino ewes ready to be slaughtered. Water was also observed inside the lairages and the flooring is non slip. Tongs are in well working order and the stun was effective . Next I observed the stunning of the cattle which was also effective . Abattoir is in good working order. Attached is a checklist that I've completed. Will recheck.

ACTIONS

NO ACTION REQUIRED
